

University of California, Santa Barbara
CalTeach: Physical Sciences and Engineering
invites you to a free, public lecture by

Physics Nobel Laureate Carl Wieman
“Taking a Scientific Approach to Science Education”

4:00 pm Tuesday

February 19, 2013

Corwin Pavilion

**Reception with light
refreshments to follow**

To help us with event planning, please RSVP to tara@education.ucsb.edu

Dr. Carl Wieman is a Professor of Physics at the University of British Columbia, where he heads the Science Education Initiative, and at the University of Colorado – Boulder, where he founded the Physics Education Technology Project. In 1997, he received the Oersted Medal of the AAPT for his contributions to Physics teaching. He was awarded the Nobel Prize in 2001 for his work, with Eric Cornell, on Bose-Einstein condensates. In 2004, the Council for Advancement and Support of Education and the Carnegie Foundation for the Advancement of Teaching named him United States Professor of the Year for doctoral and research universities. Dr. Wieman was the founding Chair of the National Academy of Sciences' Board on Science Education. From 2010-2012, he served as Associate Director of Science in the White House's Office of Science and Technology Policy.

Dr. Wieman's lecture is sponsored by:

National Science Foundation: Robert Noyce Teacher Scholarship Program

Dean Jane Close Conoley, Gevirtz Graduate School of Education

Dean Pierre Wiltzius, Mathematical, Physical and Life Sciences, College of Letters and Sciences

Dean Rod Alferness, College of Engineering

UC SANTA BARBARA
