

Physics 103 Summer 2015

Midterm Exam Policies

July 10th, 2015

The following are the policies for our midterm exam:

1. The midterm will be held **in class**, on July 10th.
2. The exam will cover all of the material on HW1 and HW2. Additionally, it will cover a small amount of basic information from Monday's lecture on driven harmonic motion.
3. The exam will be **closed book**, other than a "cheat sheet" - you can bring one 8.5"x11" sheet of paper, with whatever notes you want, *hand-written*, on **one side** of the paper.
4. A basic graphing calculator will be allowed on the exam. However, any other electronics, such as phones, laptops, or anything else that can communicate with the outside world, will be prohibited. **A smartphone on airplane mode is not a valid calculator!**
5. If you have a valid, documented reason for missing the midterm exam, then you will be excused from taking it. In this case, your overall course grade will be based on your performance on the homework and final exam. Valid reasons for missing the exam include medical and family emergencies only.
