## An Electrochemical Cell

Half reactions (H<sup>+</sup> is from  $HCl_{aq} \rightarrow H^{+}_{aq} + Cl_{aq}^{-}$ ):

$$2H^{+} + 2e^{-} \rightarrow H_{2} (\mathcal{E}^{\circ} = 0 \text{ V})$$
  
 $Zn \rightarrow Zn^{2+} + 2e^{-} (\mathcal{E}^{\circ} = 0.76 \text{ V})$ 

Overall reaction:

$$Zn + 2H^+ \rightarrow Zn^{2+} + H_2 (S_{cell}^{\circ} = 0.76 \text{ V})$$
