

The Practice of Science Winter 2008

Recommended Reading List

As you may have noticed there is not an expensive textbook to accompany you in this class. Instead, we have begun compiling a “recommended reading list” that we believe will benefit all of you as you prepare for this important decision making period in your life. The list is not long and these books are all readily available from your favorite independent bookstore, Amazon, or Borders so go pick them up and enjoy the read...They offer a relief from your textbook reading.

1. Florida, Richard. The Rise of the Creative Class. New York: Basic Books, 2002
2. Edwards, David. Artsience: Creativity in the Post-Google Generation. Cambridge: Harvard University Press, 2008
