Problem Set 6

This problem set is due on Monday, November 19th, 2012 at 5:00PM. Please turn in your answers in the boxes outside the Physics Study Room (Broida 1019).

Due to the course’s unusually large enrollment, we ask that you prepare your problem sets as follows: include all of your work, but also staple a cover sheet to the front including all of your final answers on one page.

Due to the shortened week, we will not make it to Chapter 4. We’ll be having you do two more problems from Chapter 2 for additional practice.

- K&K 2.33–2.34
- K&K 3.16–3.20
